**9. List of 20 QUESTIONS/TALKING POINTS you would like to discuss:**

- What motivated you to investigate and write about mediumship and afterlife evidence?
- Can you share examples of some of the most compelling evidence you've encountered in support of the survival of consciousness and personality after physical death?
- Have you received feedback from other bereaved people about your work—and have they indicated whether the information you shared helped them better cope with grief?
- Can you tell me a little about your father, who was a prominent psychic-medium in his day?
- What was it like growing up with a psychic father?
- Were there other psychic people in your family?
- What are some of the most evidential stories you can share about your dad's abilities?
- Who are some of the well-known people that your father counseled?
- Were you able to meet any of them?
- Have you or other family members had experiences of connecting with your son, aside from meetings with mediums?
- Can you share a little about your books and how they differ?

- Your second book, *The Persistence of the Soul* details an experiment you conducted after the passing of your younger sister. Can you explain that process without completely giving away the outcome?
- You also include a chapter about psychic phenomena and mediumship in Religion and History. Why did you choose to go there?
- Why did you start a Medium Certification program?
- How does the program work?
- Please tell me about the Helping Parents Heal (HPH) organization and how it was founded.
- From your engagement with HPH, what have you learned about the process of healing grief?
- What are the “five pillars of healing”?
- How does HPH serve bereaved people?
- What do you plan to write about in the future?

**11. Paragraph Summary about your book.** After the passing of his youngest son, Mark Ireland sought evidence for the continuity of consciousness after physical death. On his journey, Mark was able to connect with his son’s essence and observed a variety of phenomena supporting the survival hypothesis. Interweaving profound personal experience and scientific evidence, Ireland presents a deep dive into psychic-medium phenomena, spirit visitations, afterlife communication, reincarnation, and near-death experiences, pointing to the postmortem survival of consciousness.
